

Local Dog has famous father

Casey lives on the Chute Rd in Bear River with his loved ones, Brian and Lucy Muszkie. He not only has pedigree papers as Springville, Springer Spaniel, Casey the 4th but also claims a TV dad. His father, Chaps, did some fancy bird flushing on the Show, Canada In The Rough. His breed of dog is well known for their sniffability and are used in the security industry, tracking down every kind of illicit scent. His sniffing does go a little too far some times, possibly into the fetish zone, since socks and slippers are fair game, to be fondled, carried around and hidden. Not a dog to chew furniture or valuable car seats but he is known as a pro paper shredder and can remove the finger tips from expensive leather gloves as part of some strange security duty no one can figure out. Casey is a dog who only barks when there is any faint odor, slight sound or flick of light so you can imagine what his masters' single complaint might be about this beautiful lucky dog. See Casey below in the lap of luxury, lounging in his favorite leather chair. .

Tide Cycles and Sissiboo Café

Bear River is a village near the head of the tide, straddling the Bear River. If you're a cyclist, it's a steep, breathtaking coast into town on the winding Lansdowne Rd, 16 km from Digby (10 miles). You can also take the equally scenic, less steep but hilly River Rd in from Hwy 101. If you arrive on a Tues to Sat and need any tune up done to your bike, expect to find the Tide Cycles bicycle repair shop, open from 10 to 5. While you're waiting, stop by Sissiboo Café for some fresh brewed, organic coffee. Bring a nap sac to carry a pound of your favorite roast. A great cup of coffee deserves a smooth ride home. Go Tandem. Sissiboo Cafe and Tide Cycles: the perfect Bear River combination.

fair trade + organic = happiness
