

Dog from Away.

Lilly came to visit us last Saturday from Saskatchewan. She arrived in Bear River after a tour of Newfoundland. She was so glad to see me...or so it seemed. I never really had a dog, just strays when we were kids. Lilly is a 12 year old Shih Tzu, just the right size for my brother in law Allan and his wife Sylvia's trailer. I like dogs and they like me but being on the road as a musician all my life didn't allow for a dog. I guess there might have been a place for one like Lilly.

Today Allan and Sylvia were going into Digby.

They asked me if I could take her for a walk while they were gone. This was a real treat for me and she was raring to go. Up the Chute road we went, with her choking and gasping on the end of the leash. She was in such a hurry. It wasn't long till I found out why. At the side of the road she laid down three perfect doolies for me to pick up. I felt so proud that I had done such a good job walking the dog. It could have been my dog the people saw as the cars whooshed by and the cyclists panted up the hill, all envious of such a smart little dog. My dog for the day...Lilly from Away.

Hidden Talent—Philip Halliday

There is no reason you have to settle for the same old department store furniture when you have a true artisan in your town. Philip Halliday has proven that a hobby can become a business and that good quality workmanship is always in demand. From the varied selection of projects he has taken on you can see that he is a fearless match-maker of materials and creative ideas. He never shies away from putting his best thought forward and turning it into something somebody can use and enjoy. Digby can be proud of this diamond in the rough waiting to be uncovered and discovered by more of us.
